DEFFECTIVE APPEAL BRIEF

Defect in Summary of claimed subject matter

1. The brief does not contain a concise explanation of the subject matter defined in each of the independent claims involved in the appeal, referring to the specification by page and line number, and to the drawing, if any, by reference characters; and/or does not identify the structure, material, or acts described in the specification as corresponding to each claimed function for every means plus function and step plus function for each independent claim involved in the appeal and for each dependent claim argued separately by reference to the specification by page and line number, and to the drawing, if any, by reference characters, as required by 37 CFR 41.37(c)(1)(v). Specifically, the brief does not provide a concise explanation of the subject matter defined in each of the claims involved in the appeal because the brief does not refer to the specification by page and line number, and to the drawings, if any by reference characters.
